

More than just precision stamping

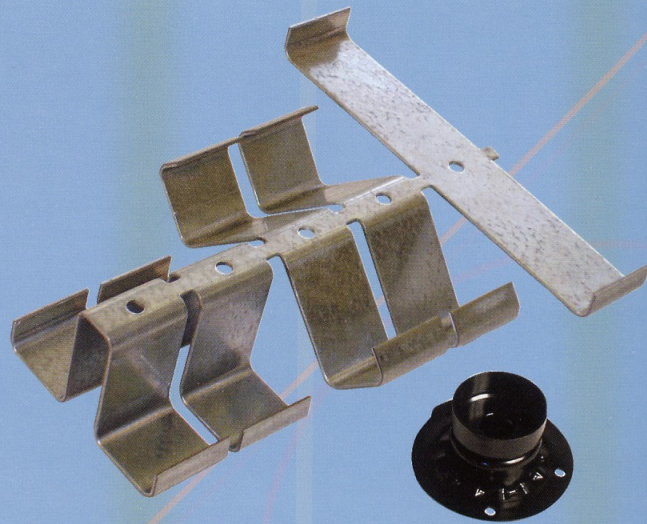

PERFORMANCE STAMPING

Partnering for Complete Stamping Solutions

Performance Stamping

Offering stamping solutions for over 50 years, cost-effectively and on time

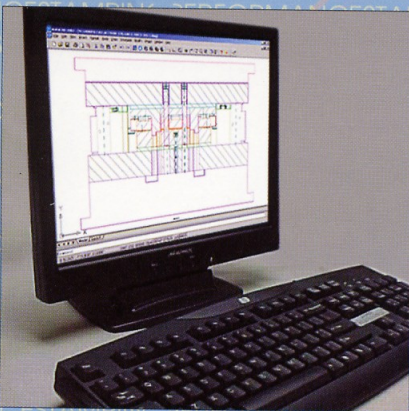

- Performance Stamping has evolved from a small family-owned company started in the 1940s to an industry leader specializing in the manufacture of parts from progressive and multi-stage dies, offering complete stamping solutions.
- With a state-of-the-art modern 80,000 square foot facility, Performance has all the resources to manufacture a wide range of parts, from simple to complex, on time at competitive prices.
- As a family-owned company, we have the flexibility to respond to your changing needs.

Performance Customers

A diverse group demanding a wide range of critically dimensioned parts

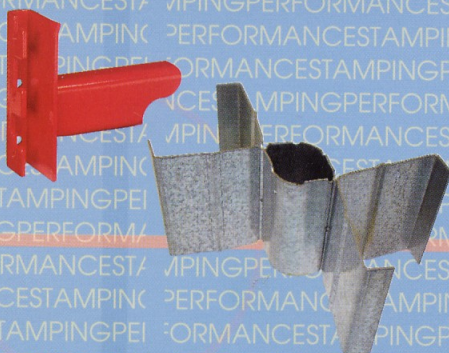

- We serve several markets with quality parts and a host of value-added services.
- Our current customer base includes OEMs and their suppliers in the following industries: Appliance • Automotive • Agriculture • Computers • Lawn & Garden • Furniture & Fixtures and more
- We believe in partnering with our customers and consider ourselves to be an integral part of their business.

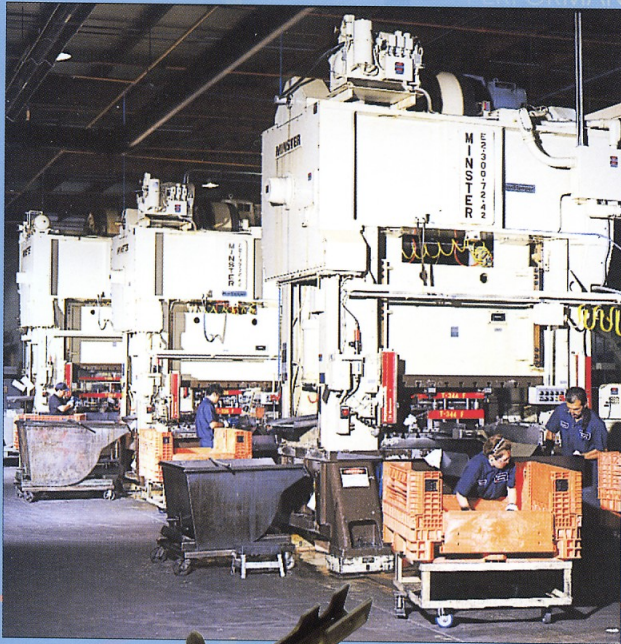

Performance Resources

Engineering experience combined with design, machining and tooling capabilities

- We consider our employees as the most valuable resource and offer ongoing training programs and team interaction.
- Our engineering experience allows us to work with your professionals throughout the design, product development and final production phases of your projects.
- Other resources include CAD/CAM integrated design, CNC machining, EDM, and the latest software and systems for quality, speed, accuracy and lower piece costs.
- At Performance, skilled tool and die makers complement the engineering design team.
- Our value-added services include assembly and secondary operations.

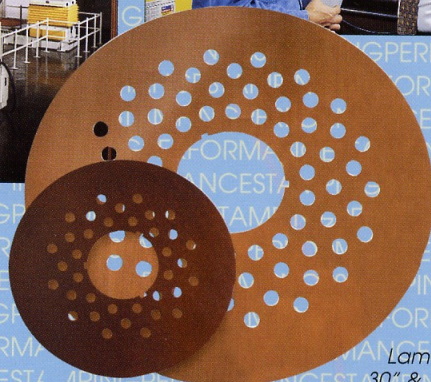

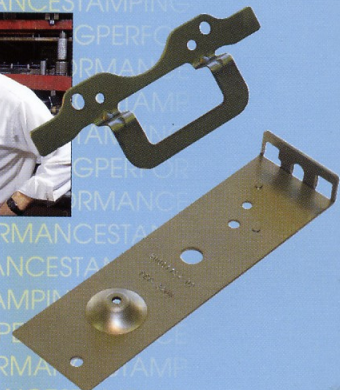

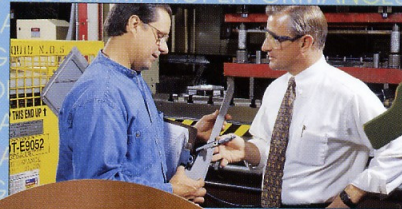

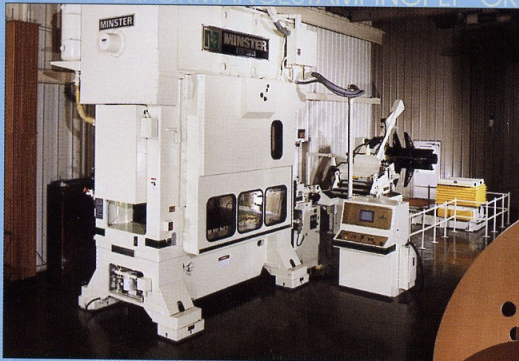

Performance Presses

Top of the line equipment to meet all your production needs

- We use the most reliable equipment in the industry—Minster presses.
- 50 to 600 ton press capacity means we can handle a wide range of part sizes and production runs.
- Computer-controlled 600 ton capacity accommodates both transfer and progressive dies and provides more flexible, cost-effective part stamping.

Motor Lamination:
30" & 16" dia.

Performance Quality

With a mission to focus on zero defects and compliance to TS16949 standards

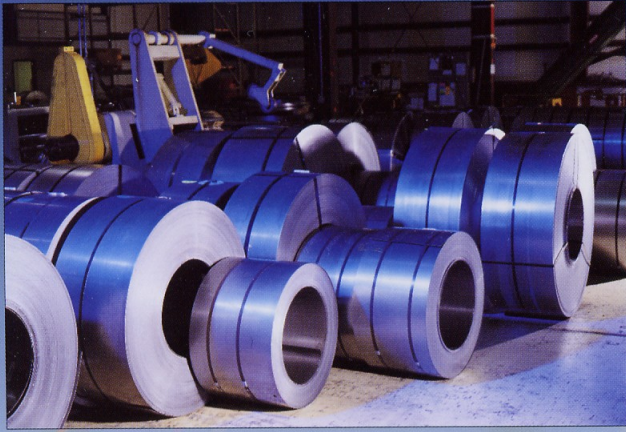

- At Performance, we maintain excellence from every resource to ensure that our quality system is in compliance with TS16949 and we meet or exceed our customers' requirements.
- We communicate our mission and quality objectives to all our employees, offer quality training and emphasize continuous improvement in product quality, service and support.

Our Mission Statement

We strive for excellence in the metal stamping industry, by meeting or exceeding our customers' expectations in quality and service.

PERFORMANCE STAMPING

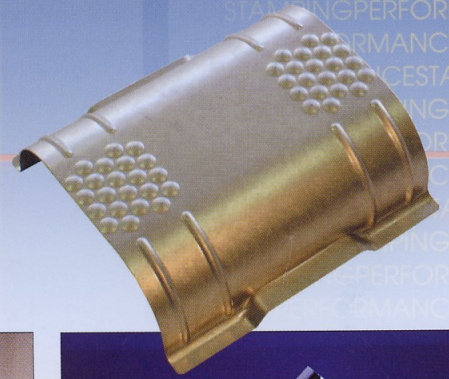

Performance JIT Programs

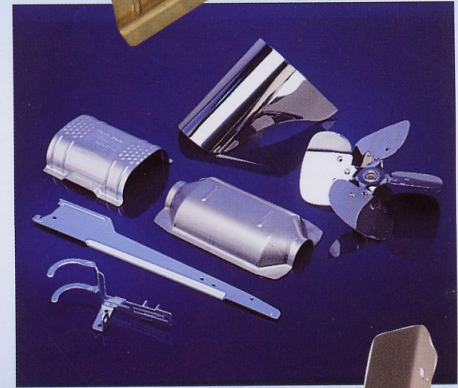

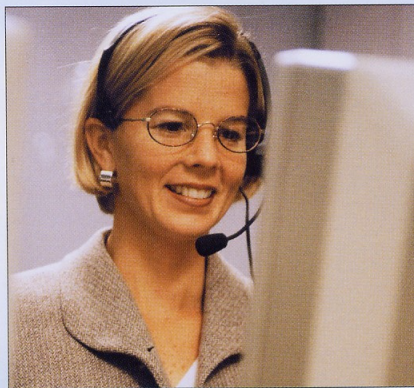

With deliveries to fit your production schedule

- Just in time delivery means outstanding stocking programs and quick lead times to help reduce your inventory costs.
- Carefully packaged finished parts are delivered on time, every time.

Performance Complete Stamping Solutions

- Medium to high volume production
- All metal, plastic and exotic materials
- Formed and drawn parts
- Progressive die stampings
- Tool design, build and repair
- 50 to 600 ton press capacity
- 60" x 120" max. bolster size
- Coils up to 60" wide, .250" thick
- JIT production scheduling
- Product development assistance
- TS16949 compliant quality program

Performance Customer Support

Goes beyond manufacturing and delivery

- Customer support is provided through every phase of your project.
- It starts with interaction with your product development group, providing material ideas and recommendations, and goes beyond manufacturing and delivery, from order tracking to handling billing inquiries.
